

## BHW ONIX OX5 | 1996

Brand: Cartec | Category: Packaging | Ref: TECH2026040870

AVAILABLE

### MACHINE SPECIFICATION

Reference Code **TECH2026040870**

Brand **Cartec**

Category **Packaging**

Condition **Used**

Status **Available**

### TECHNICAL DATA

Dimensions **3.5 m x 2.5 m x 1.5 m**

Weight **2500.00 kg**

### DESCRIPTION

Configuration: Industrial flatbed cutting and creasing machine.

Model: BHW ONIX OX5.

Manufacturer: BHW France.

Year: 1996.

Machine type: Flatbed die-cutting and sample-making table for cardboard, corrugated board, foam, plastics, and display materials.

Cutting system: Oscillating / reciprocating blade cutting system with pressure beam technology

Working table: Large-format flat support table with longitudinal material guides.

Material feeding: Manual sheet positioning with front alignment stops.

Applications: Packaging prototyping, POS display production, corrugated cardboard cutting, foam board processing, technical materials cutting, and short-run packaging production.

Compatible materials: Corrugated cardboard, Compact cardboard, Foam board, PVC sheets, Rubber, Cork, Leather and synthetic leather, Technical insulation materials.

Max working width: approximately 1600-2000 mm.

Material thickness capacity: up to approximately 20-30 mm depending on substrate density.

Control system: Electronic operator control system with manual and automatic operating modes.

Positioning system: Mechanical guide rails and calibrated adjustment system.

Drive system: Electric motorized cutting beam system.

Safety system: Emergency stop controls, front safety bar, and protected cutting area.

Operation mode: Semi-automatic industrial cutting workflow

Power supply: 380V three-phase industrial supply.

Power consumption: approximately 4-7 kW depending on configuration

Machine dimensions (L x W x H): approximately 3.5 m x 2.5 m x 1.5 m.

Total weight: approximately 1,500-2,500 kg depending on table configuration.

PRICE

**Available on Request**
